DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 5-6 rejected under 35 U.S.C. 102(b) as being anticipated by Becker, US No. 6,220,605 ("Becker").

Becker disclose a gasket (Fig. 2) comprising a sealing ring having a base portion (40). The sealing ring has a substantially J-shaped cross-section (Fig. 2). There is a flexible hollow sealing portion (38) of substantially circular cross-sectional shape affixed to the base portion and protruding in a radially outward direction (Fig. 2).

The bas also includes a lip portion (36).

Allowable Subject Matter

Claims 3-4 and 7-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
